

LEXUS GABRIEL D. NAMA

Multidisciplinary developer and designer currently pursuing a Bachelor of Science in Information Technology degree at Pamantasan ng Lungsod ng Valenzuela. Passionate about building functional digital interfaces and immersive game assets. I bring a hands-on approach to UI design, pixel art, and web architecture, with the ability to translate design concepts into responsive, functional code.

EXPERIENCE

ICT - Valenzuela Information & Communication Office March 20, 2023 - March 31, 2023

Work Immersion

PROJECTS

MATAYA-TAYA December 2025

- Developed a cross-platform endless runner using Unity; successfully implemented dual-input architecture for seamless PC and mobile play.
- Executed art direction and asset design, creating high-contrast, optimized pixel art for a consistent retro aesthetic.

Ready-Set-Bag! May 2023 - Present

- Developed a 2.5D interactive simulation for Android, focused on educating users on disaster preparedness through immersive, task-based gameplay.
- Implemented core gameplay mechanics including inventory management and environmental navigation, ensuring a responsive and challenging experience.
